

EZKLEAN

Product Description

EZWASH® is a blend of selected anionic and non-ionic surfactants with variety of uses ranging from general rig and engine cleanup to specialized cuttings wash solutions. EZWASH® helps reduce the potential for bit balling, helps improve ROP and helps reduce the stickiness of water sensitive cuttings. EZWASH® is a heavy duty, low-sudsing detergent and degreaser, which makes those tough cleanup jobs easier.

Applications/Functions

- Casing cleaner
- Remove oil-based drilling fluids residues from surface

Advantages

- Very low concentration with improved ROP performance-0.1% V/V
- Reduce the potential for bit balling
- Environmental acceptable product and readily biodegradable

Typical Properties

- Appearance: Pale red liquid
- Flash Point:>149°F
- Specific gravity: 1.05
- pH (1% in water): 9.5

Recommended Treatment

- Typically add 0.25-1 ppb to help promote bit cleaning and reduce stickiness.

Package

- 55 L DRUM
